ANOTHER RISE IN WHEAT.

CHANGE DUE MOSTLY TO REPORTS FROM LIVERPOOL.

Poor Wheat Prospects in India and Argentine Cause Sharp Advance in English Markets-Other Grains Down.

Chicago, Jan. 18.-For the third day in eccession wheat was influenced almost tirely by Liverpool. The sharp advance n that market as a result of unfavorable Argentine and India news caused an open-ing advance of 1/2c in May and that advance was also shown at the close. A feature was the buying of July by bull clique brokers and an advance of 1/20 in that option. Corn and oats were dull and closed a shade lower, provisions made small advances and had the best trade in

early cable news. May was wanted at from 91% to 91%c at the opening, against 90% fight at the close the previous day. The Liverpool quotations were advanced of per cental over night and the reason and per cental over night and the reason given for it comprised several items of considerable importance. The poorer crop prospects in India were mentioned as the chief item. Heavy rains in Argentine were reported to be unfavorable for wheat, and the continent was said to be taking the arrived cargoes off coast in the United Kingdom. London quoted cargoes on passage and off coast 24 to 6d higher. The only discord in the foreign music was that Parls reported 5 centimes reduction in the price of flour and 10 centimes in wheat. Minneapolis and Duluth receipts were 30 cars against 378 the week before and 28 the similar day of 187. Chicago got 63 cars, two of which were contract. Advices from the Northwest were to the effect that with splendid roads farmers were delivering very little and country elevators were being gradually emptied by the inducements being offered in the way of premiums for cash wheat over futures. Considerable activity was imparted to the dealines in July by the buying of that Allen Grier against sales for

Considerable activity was imparted to the dealings in July by the buying of that future by Allen Grier against sales for May. The operation was supposed to represent the taking in of spreads for a group of St. Louis speculators. July opened at St. said was advanced to 82½c by the unsering of St. Louis speculators. July opened at St. said was advanced to 82½c by the unsering of St. Louis spreads; and May, which did not get above \$13½g991½c, dropped back to \$13½c, while July was making the rise. Bradstreet's report of the world's visible made a decrease of 1631,000 bushels in stocks East of the Rockies and 330,000 bushels decrease in and afloat for Europe. The reduction on the corresponding day of last year was 4,000,000 bushels. The market weakened on that showing of small reduction in Europe, notwithstanding the diminishing world's shipments during the last few weeks. The Liverpool market closed with some of its early advance wiped out, and that also helped to undo the buillish sentiment that had ruled the proceedings up to 12 o'clock, Primary market receipts were 346,570 bushels, against 265,382 bushels the year before. Atlantic seaboard clearances of wheat and flour were equal to \$27,000 bushels, July sold at \$25,282 bushels the year before. Atlantic seaboard clearances of wheat and flour were equal to \$27,000 bushels, July sold at \$25,282 bushels that the day were inclined to drag. The market early was firm at a slight advance, due principally to sympathy with wheat. The exceedingly light business and the big visible increase. \$2,287,000 bushels, caused some decline and the market closed weak. New York reported a fair shipping demand. May ranged from 23½c to 23½c25½c, and closed \$25 to 325 to 300 bushels and the wisible supply increase of 745,000 bushels were fact buyers of May, which ranged from 23% \$425%c to 235%c, and closed a shade lower at 23%cc.

C. A. Pilisbury wired Chicago yesterday;
If the present cash demand holds the receipts will continue until everything in country elevators is here. Notwithstanding good roads, farmers' deliveries are nothing. These receipts make me bullish.

The primary market receipts yesterday were 345,395 bushels of wheat, against 205,333 bushels a year ago. Shipments were 129,021 bushels; last year, 172,640 bushels. Corn. receipts, 525,090 bushels; a year ago, 450,000 bushels. Shipments, 453,000 bushels; last year, 288,000 bushels.

Export sales at the seaboard Monday

Export sales at the seaboard Monday were as follows: 176,000 bushels of wheat at New York, and 104,000 bushels at outports; 120,000 bushels of corn and 55,000 bushels of oats at New York and 80,000 bushels of corn and 40,000 bushels of corn and 40,000 bushels of oats at outports.

"Royal Faculty." Upon the election of John D. Long, now secretary of the navy, as governor of Massachusetts in 1880, he invited Colonel T. W. Higginson to act upon his staff, and T. W. Higginson to act upon his staff, and Colonel Higginson, in visiting different part of the state with the governor, as he relates in the February Atlantic, was much struck with that wonderous gift in him, which is called in other countries "the royal faculty" of always remembering the names of every one. He had, too, the greatest tact in dealing with his audiences, not merely through humor and genial good sense, but even to the point of risking all upon some little stroke of audacity. This happened, for instance, when he delighted the Ancient and Honorable Artillery, a body made up from when he delighted the Ancient and Hon-orable Artillery, a body made up from various military and non-military in-gredients, by complimenting them on their style of marching—which was rarely com-plimented by others—and this on the ground that he "did not remember ever to have seen just such marching." The shot told, and was received with cheer upon cheer.

London Was a Good Buyer Early and Values Firm, but Later the Market "Went to Smash" Under Unfavorable Rumors.

There was some renewing yesterday, but the new demand for money was light and mainly from the country on rediscounts and the stock yards. Rates, however, held steady, at 708 per cent. Little currency going to the country, the banks gaining money from the interior instead of losing it in that direction. Deposits also good. The banks are all well supplied with funds, and are meeting with but little new and acceptible demand. New York, Jan. 18.—Prices were slaughtered in the afternoon trading on the stock exchange to-day, especially those properties, including local traction lines, which were most benefited by the market's buoyancy yesterday. Prices opened with fractional appreciations in sympathy with London, which traded moderately both ways, but buying slightly more than they sold. Large operators were not very active in the local market until the late trading. There appeared to be a general undertone of strength in the early transactions but the temper gradually changed and tumor mongers were not idle. Among other efforts to depress the market there was circulated an unfounded story that the United States minister to Spain had sought the protection of the British embassy at Madrid. Realizations of profits by large interests aided the bear raid, uncovering stop loss orders, and the market closed at or near the lowest and very weak.

The senate finance committee's approval of the resolution declaring for the payment of government bonds in either gold or sliver was used by traders as a bear card. The resolution presented in the house in the form of an amendment for the recontinuous of the payment of an amendment for the recontinuous continuous in the decline from the high point ranged from one to two points, but the net losses in most cases were fractional. The bond market was well held despite the heavy liquidations in the sick market. The issues which have been conspicuous in the dealings of late continued to vibrate very violantly.

Dry Goods. New York, Jan. 18.—There was less activity in the dry goods district to-day than yesterday. The usual Tuesday quietude was noticeable. Cotton goods continued dull in all grades. The buyers were slower to take hold of staple goods and prints than was to be expected under the circumstances. It is beyond doubt that there is a tendency on the part of buyers to under estimate the effects of the Eastern strike, or at least, they do not believe that these effects will be speedy. In local jobbing the spot trading was fairly active although mail orders were slow and small.

MIMICRY OF A DERVISH.

He Gives a Wonderful Piece of Panto mime and Imitations of His Former Master.

From the London Times.

Among the men who now leaped off the railway trucks and hurried off to their breakfast was one black ex-dervish worthy of mention. This was Somid, the Sou danese jester of the camp, who can always raise a roar of laughter in the working gangs, and is of distinct service, keeping up the men's spirits, as he does, by clever mimicry and queer tricks. A bugler in Hicks Pasha's ill-fated army, he was cap-

mimicry and queer tricks. A bugier in Hicks Pasha's ill-fated army, he was captured by the dervishes and taken to the mahdi's camp at Omdurman. There he discovered that he could make his life easier by playing the buffoon, and he became the jester of Wad el Bishara, the famous emir who commanded the dervish forces that were opposed to us last year. He used to be called up to amuse his master's friends by giving imitations of the British officers with whom he had been brought into contact.

Recaptured by us last year at the battle of Halir, he now, when not employed in rail laying, keeps the camp in a roar by his close imitations of his former master, Bishara, and other dervish notables. Seeing strangers in camp, he approached us with a comical waddle, and then proceeded, surrounded by a crowd of his appreciative countrymen, to favor us with what was certainly a very extraordinary entertainment. First, he imitated the great Emir Yunes; sword over shoulder, he swaggered up and down as through a dervish camp, boasting of his prowess and declaring that he would destroy the enemies of God and drive the English into the sea. Then he suddenly became Wad el Bishara, the true soldier, with graver mien than before; speaking calmly and deliberately, he walked with slow dignity, a leader of men, giving orders to his officers in precise terms. The different characters of the two Emirs were so clearly brought out by this close observer and marvelous mimic that one felt one would almost be able to recognize the two men with certainly if ever one met them. From the grave he passed into the ludicrous; he took off the mannerisms of a native clerk in the rail-way works, of an impatient bimbashi carrying on a conversation of a hanging men. It phone with an indistinct but imperturbable phone with an indistinct but imperturbable Egyptian at the other end of the wire. Next, with a most ghastly realism, he gave us a representation of a hanging man. It was true to life and to death, for Samid was true to life and to death, for Samid must have witnessed many an execution by hanging in the dervish camp.

To Prevent Ungainly Ankles. If American girls would confine their use of low shoes to indoors they would not risk the undue development of their ankles. French women are noted for their pretty feet, and they invariably wear high shoes

Wool Firm and in Better Demand.

Boston, Jan. 18.—A stronger tone and more inquiry, which is expected to result in a large business later, were the features in the wool market here this week. Territory wools are continuing to attract the most attention and as a result the price has hardened, sithough as yet nominal quotations have not advanced. Fleece wools show a better demand and business is done on about the basis of quotations. Australian wools held stronger in price and fair purchases are being noted.

SPECULATION AS TO FUTURE THE CATTLE MARKET.

LIVE STOCK BY TELEGRAPH. Packers Handling Bulk of Receipts-Little Variation in the Average Weight of Hogs Last Week

and a Year Ago. There is just now much speculation as to the future of the cattle market. Many seem to think that cattle should go higher. seem to think that cattle should go higher, and unless they do, assert unhesitatingly that many feeders must lose money. Isn't it possible that too much money has been paid for feeders? Choice export steers are selling now at \$4.5065.00. The same cattle were selling a year ago at \$4.8565.00. Now, let us see as to the supply. The receipts here at Kansas City up to January 18 were here at Kansas City up to January is were less than 2,000 more than the same time last year, while in Chicago they are 1,000 short and at Omaha 4,600 less, but 9,000 more in St. Louis. Total at these points, only 5,100 more than the first eighteen days of January in 1897. So the market supply of the two years has been practically the same. As there were 154,168 more stockers and feeders sent from here to the country last year than in 1896, and most of these cattle went into Kansas or that portion of Missouri nearest to Kansas City, why should the receipts on the market here fall behind last year's, especially in the near future? With these facts before us, where are your high prices to come from? These are facts that must be considered in studying the future cattle market.

Packers are handling the bulk of the receipts here just now. Monday packers' purchases were: Cattle, 2,987; hogs, 6,888, and sheep, 3,284, while shippers bought: Cattle, 2,147; hogs, 447, and sheep, 3.

The quality of hogs coming to market now and a year ago seems to be much the same. The average weight of hogs sold here for the week ending January 14 was 25; same week last year, 226 pounds. Visitors at the Yards With Stock.
